PREFACE

The Custom Rate Survey is conducted for Alberta Agriculture as a cooperative effort involving the Department Statistics Branch, and Farm Business Management Branch.

The data presented in this report was obtained by contacting custom operators and dealers and thus represent actual charges. Please note that some instances may be GNR (Good Neighbor Rates) as opposed to CR (Commercial Rates). The reader should be aware that varying conditions in different areas of the province can significantly affect the rates charged.

The intent of the survey is to provide producers with additional information to help with their farm management decisions. The quality of data is dependent on the cooperation received by producers as well as commercial custom operators. We would like to thank all those who were so willing in helping to provide information. If you are involved in any custom operations and have not been contacted but wish to contribute please call the following numbers or contact your local District Agriculturist.

Government Program Payments

In 1989, an additional question was asked with regard to government programs and what provisions, if any, exist regarding the sharing of same. Results from the 1989 survey show that in cropshare agreements the landlord received a portion of the Special Canadian Grains Program in 55 per cent of the leases. Western Grain Stabilization Act was not shared. With the cash leases very few landlords received any portion of the Special Canadian Grains Program or Western Grain Stabilization Act.
